

Relax Electric, height 1963 mm, lenght 616 mm. Graphite Black finish (cod. 18).

#### Technical features:

- electric radiating panel
- electrical power development from 580 to 1320 Watt
- wireless digital electronic control featuring weekly program
- class II insulation, IP 44
- long electricity cable: 1.200 mm (lower left side cable outlet), schuko plug

#### Standard supply:

- wall bracket kit
- heater heating system
- wireless receiver integrated on the plate with 2 leds to signal the function mode
- programmable wireless digital transmitter

#### Indication of possible installations

#### Wireless Remote Control

Relax Electric is equipped with a wireless controller that allows remote management of every electric radiator function. Because the controller is wireless, it has the advantage of being quick and easy to install and does not require any modifications within the home.

#### Technical specifications

Wireless communication via radio signals transmitted to the receiver connected to the system.

- Approx. 30-50 metre range in residential environments (868 MHz).
- Radiofrequency communication pursuant to European standards.
- Optional ITCS (Intelligent Temperature Control System)
- Open window detection function.

## Accessories towel-holder

The towel-holder designed for the Relax radiator is a design accessory that can be positioned at the desired height even after the radiator has already been installed. This means Relax can also be used as a towel warmer.

Available in one version, both with a polished chromium plated finish.
